Designated Statewide Criminal History Repositories and Alternatives (updated February 23, 2018)

The table below presents a single official criminal history information repository for each state and territory. These are the repositories which must be used to perform statewide searches for National Service Criminal History Checks. For some states, the Corporation for National and Community Service has approved the use of an alternative source. If an alternative source has been designated below, unless otherwise qualified, it may be used without further approval from the Corporation. Questions on the use of this information should be sent to your CNCS Program Officer or Grants Officer.

New alternatives are indicated by the word **"NEW!"** and updated links or notes are indicated by the word **"UPDATED!"** Both new additions and updates are also **bolded and highlighted**, with the effective date of the change noted. Webpages are updated and moved often and we do not maintain a continuous assessment of these updates. If a link appears to have changed, please contact CNCS and we will note the out-of-date link for our next update. In the meantime, if you encounter a broken link below, please find the listed repository using a search engine of your choice. Thank you.
